Triton Canada \$59.00 Results in 1 hour (Fast but - Most Expensive I have found)

****Note if you intend to use MyBackCheck****

- This criminal check uses Equifax to verify your ID by asking you to answer a few multiple choice questions about your credit history when you apply online. *Don't worry: none of this info can be seen by anyone But You!*

- The questions are random and general in nature, like: "do you have an outstanding student loan?" and "What is the value of your outstanding student loan?" So, in fact, if you have no loan - the second question can throw you, (since in my case the value was no loan = 0\$) -- and make you second guess your Equifax. This happened to me (see my next point).

- If you make a mistake, then you will have to go into a local post office to get someone there to verify you with appropriate ID. This delays the process slightly.
